

NEWSLETTER APRIL 2008 ISSUE 36

Special feature: MV Codene

Breaking News Flash: Fantastic Charter Opportunity!

We can now offer you the chance to charter a specialized dive yacht in the amazing locations of Palau, Thailand, The Andaman Islands, The Maldives and more in 2008-2009.

Seldom does the opportunity arise to charter a yacht in these areas that specializes in diving.

The owner has had several super yachts and this is evident in the quality interior design and layout of the vessel.

The M/V Codene is a 35 metre (115 ft) research/expedition vessel sturdily built in 2005 in Australia to explore the world's oceans and cope in demanding environments. She is now equally suited to a relaxing cruise in exotic locations, having been upgraded with a yacht style interior and can sleep six to eight guests.

Codene and her crew specialize in dive charters. Two skilled, certificated divemasters/instructors are part of the crew. Codene has an extra large aft boarding platform, enabling comfortable access to tenders and easy dive preparation. There is also a dive locker and compressor, and even underwater photography is available.

Other attractive features include her modern clean profile and open fresh interior styling. Light wall coverings and casual bright upholsteries with a subtle subtropical theme build a relaxed and comfortable atmosphere.

Large teak deck areas afford a variety of living, dining, entertainment or relaxing spaces, so you can choose a private and peaceful corner, or congregate in a comfortable social environment. Large storage capacity and tankage and state of the art on board systems enable self-sufficiency in remote areas.

Facilities:

Main Deck:

1 x master stateroom with superking bed, generous wardrobe and drawer space, dressing table/desk and ensuite bathroom.

Lower Deck:

2 x queen bed guest cabins with desk, DVD player, and ensuite bathroom with shower.

1 x twin bed guest cabin with 2 single beds, desk, DVD player, and ensuite bathroom.

1 x twin bunk cabin with 2 single beds, desk, DVD player, and ensuite bathroom

All are climate controlled.

Of course diving or snorkeling are a must, but there are many other activities to enjoy on a cruise aboard Codene such as:

Waterskiing

Kayaking

Cycling or walking ashore,

Using the exercycle on the main deck aft,

Watching a movie under the stars

Reading a book in the sundeck lounge area

Or simply enjoying the stunning scenery from the aft deck, where the glass side panels can slide right back to let the breeze waft through.....

Available dates and locations in Codene's upcoming itinerary:

Republic of Palau - May 3rd to May 26th.- June 25th to July 20th

Thailand - October 1st to November 15th

Andaman Islands - Nov 20th to Dec 20th.

Maldives - Jan 15th to March 14th.

Eastern Mediterranean - May to September

In all, the MV Codene offers a rare experience of chartering holiday, combining high class luxury facilities with the ability to travel, adventure and stay far afield in total comfort. The vessel and crew offer you a very special get away, without hassles or headaches....it seems there's nothing like a good dose of Codene!
